

# Legal technology and innovation workshop

## Benefits:

- Identify cost-effective and sustainable ways to improve efficiencies within your firm
- Gain insight into ways technology can create new revenue opportunities and improve client service
- Ensure you are extracting the maximum value from your current and future IT spend
- Receive a high-level IT roadmap designed to facilitate a logical shift from your firm's current to future IT state

The Innovation Workshop consists of 2 separate sessions, on-site with you and your key stakeholders.

The first session is structured to identify your current challenges and provide insight into the opportunities technology can provide.

The second session is an opportunity to review and refine the proposed approach. The outcome of this session is an IT roadmap which aligns priorities, timing, cost and resourcing in relation to the expected benefits and return on investment for your firm.

## Frequently asked questions

**Question:** What is the cost and does it include travel costs?

**Answer:** The fixed fee for this service is \$5,600 ex GST which includes travel costs within Australia.

**Question:** Does my firm need to undertake any subsequent work with NextLegal beyond the Innovation Workshop?

**Answer:** No, the IT roadmap developed is yours to keep. You can elect to proceed in any way you choose beyond the workshop, there is no further commitment required.

**Question:** Who should be involved in each of the sessions?

**Answer:** Your key stakeholders with a strong operational, strategic or client service focus.
